## LOCAL NEWS.

Mr Stewart, of the A-P  
elevator, has been confined to  
his home in the City thru  
illness.

Young Henry Trapp is again  
under a doctor's care, in the  
City.

Mr Henry Treit returned to  
his studies in a City college,  
after being in Stony for a  
week, on sick leave.

Miss Mary Dannbauer, Ed-  
monton, visited over the week  
end with her mother, in Stony.

Mr Henry Ulmer left this  
week for his home in Van-  
couver.

Mrs John A Berry is visit-  
ing friends in Vancouver.

Mrs Merritt and children,  
from Lamont, are visiting,  
this week, with Mrs C Goerz,  
east of town.

Mr D Moyer, the well-  
known painter, has completed  
a very artistic piece of work  
for Mr A Bauer.

Stony Plain Town Council  
meets tonight.

Another competition is on,  
at present, between members  
of the Curling Club, this time  
with mixed rinks. The contest  
opened a week ago, with af-  
ternoon and evening sessions,  
and continues to Saturday  
next. The prizes are: First,  
4 boulevard electric lights; 2d,  
tomato servers; 3d, besoms.  
The competition has entered  
a very interesting stage, as  
the supposedly poor curlers  
are now making a good show  
ing.

**HOCKEY RESULTS** — Stony

team plays a return game in  
Stony the afternoon of Feb.  
6th.

On Saturday noon a house  
on Fifth street, owned and oc-  
cupied by Mr Robert Stoker,  
was found to be on fire. The  
occupant of an nearby resi-  
dence phoned down town and  
the volunteer fire brigade was  
quickly on the scene, with the  
chemical engines, and were  
able to save the building, al-  
though the roof suffered con-  
siderable damage. As the fire  
was beyond reach of the brig-  
ade's supply of hose, the fire  
engine was not taken. The  
building was insured. Mr  
Stoker wishes to thank all  
those who responded to the  
alarm, and thru whose efforts  
the blaze was subdued.

While coming up the road  
from Golden Spike, Thursday  
morning last, with a tankful  
of grain and two teams, Mr  
P W Trautman had the mis-  
fortune to have his outfit over-  
turn about two miles south of  
St. Matthew's schoolhouse.  
There has been a snowdrift at  
this point for some time, com-  
pelling the drivers to hug the  
fence. While doing this, the  
heavy vehicle broke thru the  
top crust on one side, causing  
the accident. Mr Trautman  
was given assistance by those  
in a nearby farmhouse, but  
suffered the loss of a few  
bushels of his load.

## Well-Known Home Builder Quickly Restored To Health

**Victim of Nervous Indigestion, Loss of Sleep and Intolerable Pain, Father of 8 Children, Finds Long-Sought Relief. Strength Restored. Praises Tanlac.**

Joseph A. Brunel, a well-known Montreal building contractor, 7655 Hoyer Street, says: "The brain, muscle and splendid health of the strong old man will break under the strain of modern living."

"I was suffering untold agonies when I began taking Tanlac. My strength had vanished. I couldn't work efficiently. I couldn't enjoy life as other men did. I had lost weight and was wracked by knife-like pains."

"I was completely discouraged when Tanlac was recommended to me and I took it. I recommend it to anyone who is ailing."

"This tonic worked wonders with me. Quickly my old strength returned. I began to have a great appetite and eat everything without a sign of pain. Once more I was able to go to work. I have a good night's sleep. Tanlac certainly put me on my feet, made me stronger and gave me better health than I have had in years."

Tanlac usually banishes pain. Conquers ailments and builds up strength in debilitated bodies. It relieves the system of poison caused by constipation

and sluggish liver. It is nature's own remedy, made from roots, herbs and herbs according to the famous Tanlac formula.

It banishes sickness from your life and brings the benefits of golden health. Begin taking Tanlac. The first bottle usually brings results that will surprise you. Ask your druggist for Tanlac—today!

## Survivors Of a Bygone Age

Newspapers throughout Canada recently printed accounts of a school, reached by the ratapayers and trustees of a school district in Ontario which is almost unbelievable in this day and generation. The little school house in this particular district is lighted by oil lamps, and, according to the teacher, for at least twenty-five days in the year the light is so poor the children can hardly see the blackboard. Under the circumstances a community club offered to pay the cost of the installation and maintenance of electric light, an offer which presumably the school district officials would be only too glad to accept.

On the contrary the offer was refused and the reason for refusal was that oil lamps were good enough years ago and consequently were good enough now; that, in a word, what was good enough for their fathers and grandfathers was good enough for their children and grandchildren.

If the ratapayers of this Ontario school district are consistent, one is forced to the conclusion that they still carry on their farming operations with hoes and rakes, hand shovels and scythes, according to use modern farm machinery; that they plod to town with a yoke of oxen, and utterly despise such now fangled notions as railway trains or automobiles; telephones, telegraphs and radio must be anathema to them.

Fortunately for Canada there are few people of the same mind as these Westminster township school ratapayers. It was not men of this type which built up this Dominion. Rather, the pioneers who came first into Eastern Canada and later pushed out over the almost limitless expanses of the prairies were men and women determined that whatever hardships they had to undergo and put up with, their children and their children's children should be better off. They were most decidedly of the opinion that what was good enough for their grandfathers was not good enough for them, and the best was not a bit too good for their children. Consequently they conquered the virgin forests and the virgin prairie, made homes, constructed roads and railways, built cities, schools and universities, and made Canada what it is today.

This constant yearning and striving for something better, this insatiable demand for development and improvement, is the glory of mankind, the distinguishing mark between man and the beast. In it is to be found the secret of all progress. Without it the world would stagnate, deteriorate, and become hopelessly lost.

It may be that some of the younger generation of today are demanding too much; that they insist upon beginning life where their fathers left it, and expect ease and comfort and the rewards which labor alone can bring without expending the effort which all men make if they would really enjoy life and prosper in this world. But placing a proper restraint upon such ill-advised desires, and curbing such youthful folly, is an entirely different thing to depriving the children of today of the advantages with which science, invention, and years of enlightenment has blessed the world.

Apparently this little group of ratapayers and school trustees are not only willing to endanger the eyesight of their children but would condemn them to find the same mental ignorance and unprogressive life which they apparently are content to live. We venture to predict the children will rebel and at the earliest possible moment break away from their home environment and launch out into the world of light, progress and advancement.

The surest guarantee of keeping the boys and girls in the old home district, and preventing them from flying off to the cities and other faraway places presenting green pasture, is to make the old home surroundings as up-to-date and attractive as possible, thereby providing a powerful rival to that other world which beckons. If parents and communities realize this, and act accordingly, they will also find they have a great ally in the appeal which home always makes to every boy and girl.

The ratapayers and school trustees of Westminster township, Ontario, provide a horrible example of how not to do these things.

## Queer Rite Observed

By Hindu Pilgrims

Circle Sacred Places by Series of Prostrations

When Hindu pilgrims visit a sacred place, they go around the spot by a continuous series of prostrations.

They carry a stone in their hands and when they drop on the ground they stretch their arms out as far as possible and leave the stone on the ground so as to measure their length.

Then they arise, walk the six or seven feet to the stone, and pick it up. Again they prostrate themselves, leave the stone, arise, and so on until they have returned to the starting point.

Many of the circuits are more than three miles in length, and it requires an entire day to make the whole trip.

Each mile usually requires one thousand prostrations, and when a devotee has "dropped three thousand times he is so nearly dead that he rolls over in the dirt to the side of the road and rests there until the next day."

## A WEAK STOMACH

Can be Strengthened Through the Use of Dr. Williams' Pink Pills

Wonderful is the process by which the chemistry of the body changes the food we eat into blood. And the whole of our well-being depends upon this being maintained day after day, year in and year out. Sometimes the process becomes faulty, and then food begins to poison the blood instead of feeding it. This is followed by all the pains of indigestion, such as gas on the stomach, pains around the heart, often nausea after eating, and a distaste for all kinds of food.

The only way to overcome these troubles is to tone up the digestion so that you can assimilate all your food. To do this you have only to take Dr. Williams' Pink Pills. A short course of these pills will quickly tone up the stomach and banish indigestion. Here is a bit of convincing proof given by Mrs. C. S. Lander, Ellerslie, P.E.I., who says:—"For some years I was a sufferer from stomach trouble. Everything I ate caused distress, sour stomach and belching. I could not eat meat or potatoes, and I grew weak and nervous. No medicine seemed to help me until I was persuaded to take Dr. Williams' Pink Pills, and these simply worked wonders. I took the pills faithfully for a couple of months, by which time every symptom of the trouble disappeared, and there has not since been the slightest symptom of stomach trouble. No wonder I praise Dr. Williams' Pink Pills."

You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

# American Economist Refutes Belief That Present Generation Enslaved By Use of Machinery

"In this new age, if we are wisely guided, all may be relieved of drudgery, all may have a surplus of energy with which to do what they like instead of being compelled to use all their energy doing things which necessity compels, since the machine is more and more displacing cheap labor not only in the productive establishments but also in the household," writes Professor T. N. Carver of Harvard University in January "Current History." "It is the machine that makes the high wages and the light work of the present day and the still higher wages and still lighter work of the future possible, since the world over a high product per worker goes with a high wage rate and a low product per worker with a low wage rate. It is the machine that is relieving housekeepers, small shopkeepers and farmers of the soul-killing drudgery to which they formerly were slaves.

"It is objected that this will make all slaves of the machine. That it will make us more and more dependent upon machinery is true, but we shall be no more dependent upon machinery than slave owners were upon their human slaves or than well-to-do persons have always been upon hired help. To be dependent upon some one or some thing does not necessarily make us a slave of that person or that thing.

"Others find an objection in the fear that we are coming to be dominated by things, or that we are becoming too much obsessed with the value of mere things. Before we pronounce the word 'things' in too scornful a tone, we shall do well to consider carefully what mere things, in the sense of mechanical contrivances, have contributed to the larger and finer life of the present. Without mechanical contrivances, for example, our ability to communicate with our contemporaries far and near would be limited to the carrying power of the human voice and the running power of the human legs and we could benefit by the thoughts and achievements of past generations only in so far as the human memory is aided by oral transmission could hand them down to us.

"Of course, machines are not everything. A modern Martha in the most up-to-date house with every known mechanical device to save her may lack the soul of Mary; but that is not the question. The question is, Given the soul of Mary, would the fact that she had the benefit of labor-saving devices destroy that soul? To say 'Yes' would not be much of a tribute to the soul of Mary. These devices merely relieve her bodies of the Marys and Marthas of much drudgery and release energy to be used in whatsoever way their souls may desire."

## Feeding Dairy Calves

Changing From Whole to Skim Milk is Critical Time

Calf-feeding is of momentous importance to the dairy. The method pursued at Nappan, N.S., Dominion Experimental Farm is as follows, as told in the last report of the Superintendent, Mr. W. W. Baird. The calves receive a mixture of 4 parts bran, 2 parts oats, 1 part oil meal, and 1 pound bone meal per 100 pounds milk fed for the first year. Until the calf is around six to eight weeks old whole milk is fed and then a gradual change is made to skim milk. At this time a small amount of fax seed jelly is fed, starting with about one quarter pound and increasing by degrees to one pound per day. The amount of dry grain hay and roots fed increases as the calf grows older. The main thing remarks Mr. Baird, is to keep the calf from getting a setback when changing from whole to skim milk and to keep it in good growing condition.

The average weight of the heifers at Nappan farm at one year of age is 600 pounds. The average cost of rearing bull calves (Guernseys) until a year old is placed at \$55.36, of heifers at \$56.26, and of grade heifers at \$43.32.

Forty first-class stations have been installed at busy traffic centres in London.

London caterers made more than a million Christmas puddings this year, and shipped all over the world.

## Manitoba Wheat Helps Clay Belt

Experimental Samples Produce Exceptionally High Yield at Kapuskasing

The possibility of converting the clay belt of northern Quebec and Ontario into a profitable wheat raising area has been indicated by experiments which the Dominion Experimental Farm at Kapuskasing, Ontario, has been conducting with Manitoba No. 1 hard Marquis wheat.

In a report which has been received by Dr. W. J. Black, director of the Agriculture and Natural Resources Department of the Canadian National Railways, it is stated that where this wheat was sown by Smith Ballantyne, superintendent of the farm at Kapuskasing, the wheat grown from the samples weighed 65½ pounds per bushel with a yield of 54.4 bushels per acre.

As a result of this experiment it is expected there will be a large increase in the acreage sown to wheat along the lines of the Canadian National Railways both east and west of Cochrane where colonization has been proceeding at a satisfactory rate.

## Marsh Lands for Fur Farming

Saskatchewan Government Taking Over Area Required in Province

Negotiations between the Saskatchewan and Dominion governments, regarding the leasing of marsh lands for fur farming purposes, have now been completed and arrangements are being made to turn over certain crown lands for this industry. Hon. C. M. Hamilton, provincial minister of agriculture, announces.

Large areas of marsh lands controlled by the crown are available for fur farming in the northern part of Saskatchewan, and there is reported to be a moderate demand for such land.

The fur farming industry is so intimately bound up with the control of wild life, for which the provincial authorities are responsible, that it was considered impossible by the Dominion Government for one to be divorced from the other. An agreement was consequently reached whereby the Saskatchewan government is authorized to take over available Dominion land in the province required for the development of the industry.

## Has Abundance of Good Coking Coal

Plenty in Alberta and B.C. for Industrial Purposes

That there is plenty of coking coal in Alberta and in British Columbia for industrial purposes was the statement made by C. C. Ross, Dominion Government engineer, Calgary, in reply to the assertion of Hon. T. A. Cramer in a speech in Montreal that there would be difficulty in industrial development in Western Canada largely because there is no coking coal or iron between Cape Breton and British Columbia.

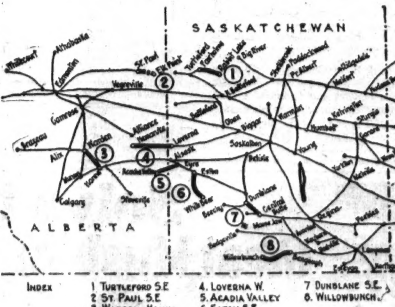

Mr. Ross stated that all the big mines in the Crow's Nest Pass, which lies partly in Alberta and partly in British Columbia, could produce coking coal and that the International Coal Company at Coleman, Alta., was actually producing coke.

In addition, the Ford-Burns mines in the Sheep Creek and Highwood River districts had plenty of coking coal awaiting development.

As for iron, Mr. Ross did not know of any big deposits in Alberta or British Columbia.

Owing to the high cost of coal, a scheme has been fostered for the distillation of peat, or, as it is commonly called in Ireland, turf, enormous quantities of which exist in the British Isles. From it can be obtained paraffin and asphalt, and other by-products.

## CANADIAN NATIONAL EXTENSION IN WEST

The branch line programme of the Canadian National Railways was actively pursued in 1926, especially in Saskatchewan and Alberta, where a total of approximately 290 miles of new line was completed. The construction of this additional mileage will permit the company to add further improvements to its passenger and freight service; will shorten some of the routes, thus allowing for a lowering of operating costs, and has opened new territory to the homemaker. In the accompanying map the new branches are shown by heavy lines. The work in detail is as follows:

- 1-Turlockford-Southeasterly. 42.2 miles. Open for traffic early this year.
- 2-St. Paul-Southeasterly. 30.5 miles. Train service will probably be extended over this new section early in 1927.
- 3-Warden-Hanna. 62.1 miles. Completed and regular mixed train service was established on this line effective October 22.
- 4-Lovena-Westerly. 50.0 miles. It is expected train service will be in operation to Hemaruka early this year.
- 5-Acadia Valley. 24.5 miles. Completed and regular mixed train service.
- 6-Lovena W. 5. ACADIA VALLEY. 6. ESTON S.E.
- 7-Dunluna S.E.
- 8-WILLOWBUNCH.

# Wonderful Progress Made By the Dairy Industry in The Three Prairie Provinces

It is only in recent years that the Prairie Provinces of Canada have taken seriously to dairying, but the industry has made wonderful progress, and the manufacture of dairy products in Western Canada has become one of the most pronounced features of Canadian agriculture. The vast areas of Western Canada still uncultivated or still devoted entirely to grain growing are well adapted to the production of milk, and in all probability the great expansion of the Canadian dairy industry in future will take place in these provinces. A feature of the butter made on the prairies is its excellent keeping quality, a very important consideration now that there is a surplus for export. The fine quality of the dairy products of Manitoba, Saskatchewan and Alberta is also shown by their popularity in open competition. The entries of these provinces in international and interprovincial exhibitions have repeatedly won leading prizes wherever shown.

Between 1900 and 1924 the butter production of British Columbia, Alberta, Saskatchewan and Manitoba increased from three to fifty million pounds and the cheese production of 1¼ million pounds was doubled. Alberta has now replaced Manitoba as the leading dairy province of the west and the Saskatchewan figures show a doubling of production every five years. It is predicted that by 1928 the production of Western butter will exceed 100 million pounds of which possibly three quarters will be available for export. Such an exportable surplus would definitely place Canada among the world's outstanding dairying countries.

The estimated current (1926) production is as follows:

	Manitoba	Saskatchewan	Alberta
Creamery Butter, lbs. ....	15,448,000	16,500,000	20,750,000
Dairy Butter, lbs. ....	9,236,000	17,700,000	.....
Cheese, lbs. ....	911,000	210,000	1,350,000

The value of all dairy products was estimated at \$56,800,000 for the season of 1926.

The free homestead policy, whereby a qualified person may acquire a quarter-section of land by the performance of certain residence and improvement duties, still applies to the public lands in the Prairie Provinces, except the southern portions of Saskatchewan and Alberta, but with the exception of the northern districts of the three provinces suitable lands available for homestead entry within easy reach of railroads are practically exhausted. There are, however,

tons of millions of acres of fertile lands lying idle within 10 and 15 miles of existing railways. These lands are privately owned and many of them can be purchased at reasonable prices. The Natural Resources Institution, Service of the Department of the Interior, Ottawa, issues 'lists of such lands, giving brief particulars, including location, prices, terms and owners' names and addresses. These lists are available to prospective homesteaders and purchasers.

## Held Up New York Traffic

Six Subway Trains Stalled Before Small Dog Was Caxed off Tracks

Refusal of a little black dog to leave the subway track on Brooklyn Bridge resulted recently in a 20-minute tie-up of traffic and the calling of police reserves. Before the dog was coaxed into the arms of a policeman six trains were stalled and nine policemen, six motormen, 19 guards, 40 motorists and more than 100 passengers discussed the best method of removal. The dog was booked at the bridge precinct police station on a charge of "tying up traffic at a dense centre" and sent up traffic at a dense centre" and sentenced to the dog pound for the night.

## Place in Rotation to Seed Fall Rye

Yields Better When Rotated With Barley Instead of Wheat

Conclusions reached at Lacombe, Alberta, experimental station relative to the place in rotation of seedling fall rye are of interest and value. As given in the last report of the Superintendent, Mr. F. H. Reed, those in brief are:

Fall rye does not work in well in a rotation where wheat precedes it. Barley is a better crop than wheat to precede fall rye in the rotation. Ploughed barley stubble has advantage over disked barley stubble in a wet fall. In a dry fall the reverse is the case. Taking one year with another the expense of ploughing the barley stubble is not justified.

Oats for grain or green feed is not a suitable crop to precede fall rye in the rotation, the yield of the rye being lower than where it follows barley or even wheat.

An annual pasture of 2 bushels oats and 1 bushel fall rye has been found a most dependable pasture relative to the place in rotation of seedling fall rye on sod that has produced a crop of hay during the current season, and has been ploughed after harvest for the fall rye seed-bed, depends largely upon the amount of moisture in the soil. Poor results follow a dry season, but reasonably good results will be had in wet years.

In all infantile complaints that are the result of the deprivations of worms in the stomach and intestines, Miller's Worm Powders will be found an effective remedy. They attack the cause of these troubles, and by expelling the worms from the organs insure an orderly working of the system, without which the child cannot maintain its strength or thrive. These powders mean health and improvement.

WHY THIS CONTEST IS NEW

If you are clever enough to solve this fascinating puzzle, you have opened the way to being declared first prize winner. This Great Mystery Message contains four words and is the slogan of a well known hosiery firm. Each little group of letters represents a word and forms a message of interest to you. For instance, the second jumbled group of letters is WREAWLLE and when put in its proper order it reads: WREAWLLE HOES WRAE LENGRO. If your solution is successful in winning 160 points, the maximum for being correct, we will give you the first prize you can easily be won. Be neat and careful. Comply with the rules.

SEND NO MONEY. COSTS NOTHING TO COMPETE

This is an advertising contest. We want to make you and your friends acquainted with the wonderful Wreawlle Hosiery made in all the better grades of pure silk and wool, and pure wool for the whole family, and sold direct to wearer.

There is no entrance fee, nor do you have to spend your money to compete in winning prizes. It is not a sales contest for the largest sale. EVERYBODY IS OPPORTUNITY IS AVAILABLE.

## SUNDAY SCHOOL LESSON

FEBRUARY 6

### THE PRACTICE OF CHRISTIAN STEWARDSHIP

Golden Text: Thou hast been faithful over a few things, I will set thee over many things; enter thou into the joy of thy lord.—Matthew 25:21.

Lesson: Matthew 25:14-30.

Devotional Reading: 2 Corinthians 5:6-11.

### Explanations and Comments

1. The Commission, verses 14, 15. Jesus is speaking to His disciples about the Kingdom of Heaven, and he begins a parable by saying that the situation is comparable to that of a man who, about to go into another country, calls his servants and delivers to them his goods. "The story is true to the oriental life of the period; for, when a wealthy man was leaving his home for awhile, two courses were open to him for the arrangement of his affairs; either he might make his confidential slave, his agent, committing to them the tilling of his land, and giving to them his money to be used by them in trade; or he might take advantage of the money-changing system which had been introduced by the Phoenicians, and which was at the time in full operation throughout the Roman Empire."—(Wm. M. Taylor).

In his interpretation of the parable, the "man" represents Christ; his "goods," stand for all possessions—life, physical and mental powers, etc.—which are represented as God's property, entrusted to men, his servants, as a loan.

The servants were all trustworthy, but they differed in capability, and the master superintended his goods among them according to his judgment of the ability of each. Only one man gave three times as much, and to another one. Even the one talent represented a considerable sum, about one thousand dollars, whose value is recognized when we recall that a denarius was a day's wage, and a talent was the equivalent of six thousand denarii. In the interpretation of the parable, the "talents" are the "goods," whatever is given to each one for use and improvement. Our use of the word "talent" to signify mental skill or skill in accomplishing anything is derived from its use in this parable.

### Little Helps For This Week

I am with thee, and will keep thee in all places whither thou goest.—Gen. xliii. 15.

Lord, be thou near, and cheer my lonely way.

With Thy sweet peace my aching heart will fill.

## IF BILIOUS, SICK OR CONSTIPATED TAKE "CASCARETS"

No headache, bad cold, sour stomach or constive bowels by morning

Get a 10-cent box now. You'll be sure to have a thrilling sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow, with dark rings under your eyes, your lips are parched. No wonder you feel ugly, mean and ill-tempered. Your system is full of bile not properly passed off, and what you need is a cleaning up inside. Don't continue being a bilious nuisance to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Remember that most disorders of the stomach, liver and bowels are cured by morning with gentle, thorough Cascarets—they work while you sleep. A 10-cent box from your druggist will keep your liver and bowels clean; stomach sweet, and your head clear for months. Children love to take Cascarets because they taste good and never gripe or sicken.

## BRITISH AND CHINESE IN RACE FOR SHANGHAI

London.—The race for Shanghai, prize city of the Orient, is on between the British army and navy, and the Chinese Nationalists. The Cantonese conquest of the great international settlement at the mouth of the Yangtze, where 10,000 foreigners reside and many foreign refugees from the north of China are now gathered and where the immense foreign trade interests of China are centred, must be accomplished within six weeks if the Cantonese are to avoid dealing with the British defence force of 20,000 men, who are hurriedly leaving or will soon leave English ports, Malta and India.

It is repeatedly emphasized by the British foreign office, however, that there will be no clash between the British and Cantonese unless British lives and property in Shanghai are endangered. The British defence force will make no effort to prevent the Cantonese from entering and occupying the city of Shanghai if they are strong enough to do so.

The British maintain that the question of the control of Chekiang province, right up to the limits of Shanghai's international settlement, is a problem to be settled by the attacking forces of General Chiang Kai Shek, commander of the Cantonese forces, and the defending army of Marshal Sun Chuan-sheng, ruler of Chekiang.

Should Shanghai itself be threatened either by actual fighting or by the rabble of a Chinese army, the British defence force, together with the Shanghai volunteer organization, and whatever forces Japan, United States and France have available, would probably be employed along the 21-mile line, which would completely cut off Shanghai from the interior and render the city inaccessible from Chinese attacks. Occupation. This 21-mile line has been defended on previous occasions by volunteers and foreign detachments when Chinese civil war threatened the city.

### Would Abolish Sales Tax

Ottawa.—Abolition of the government sales tax of 5 per cent, on all men's and women's wearing apparel was requested by a delegation representing Canadian wholesale and retail garment industries which waited upon Hon. J. A. Robb, minister of finance.

Mr. Robb indicated that the request would be given consideration.

### Population of Saskatchewan

Ottawa.—The population of Saskatchewan was 2,012,241 last census taken on June 1 last. This is announced in a preliminary statement issued by the Bureau of Statistics. The result shows an increase of 65,332 over the census of 1921.

### Ten Chinese Executed

Peking.—A telegram from Poshov says General Ho Ying-ching, Cantonese commander there, arrested 200 Chinese connected with the recent anti-foreign rioting and executed ten of them.

## Fifty-Eighth Annual Meeting of The Royal Bank of Canada

The fifty-eighth annual general meeting of The Royal Bank of Canada, held at the hotel office, marked the close of a very successful year and was attended by a large gathering of shareholders.

Several announcements of special interest were made both by Sir Hon. Herbert Holt, president, and C. E. Neill, general manager. In his address, Sir Herbert Holt gave a complete review of the outstanding features of the growth in Canada's trade and industry and took the view that during the past year there had been security and substantial improvement in almost every department of Canada's life.

Discussing the necessity of the reduction of all taxes and the reduction of government, so that it is not a burden to the citizen, but a stimulus to the citizen, Sir Herbert said: "What Canada needs is to follow the example set by the United States, in the reduction of all taxes and in the reduction of government, so that it is not a burden to the citizen, but a stimulus to the citizen. Canada has frequently shown that she is not without courage in facing her economic problems, and there are indications that she holds a responsible policy of administrative economy on the part of all governments would meet with strong public approval and support."

C. E. Neill, general manager, gave

## Thinks India Should Help Protect Shanghai

"Times" of India Believes It Duty of Government

Bombay, India.—The view expressed by Nationalist newspapers that troops from India should not be sent to China, is now shared by the "Times" of India, which considers it the "plain, irresistible duty of the government," to secure the protection of the international settlement in Shanghai so long as that security depends upon existing treaties. "There is a large Indian community in Shanghai and very important Indian commercial interests there; it is just and proper that troops from India should share in this essential duty," the "Times" points out.

Talk of war with China is nonsense. In the opinion of the Indian Daily Mail, which says that protests against sending a contingent to China are not well advised, "since the prompt despatch of a contingent may prevent further aggravation of the conditions in China and promote a peaceful settlement."

## Cannot Accept Contract

Boy Swimmer Would Not Be Used in Picture Until May

Hollywood, Cal.—George Young, Canadian youth who won the \$25,000 prize in the recent Santa Catalina channel swim, failed in his first attempt to break into the films and further capitalize his new fame.

Negotiations between Young and Famous Players-Lasky, in whose studio he recently underwent film tests, were dropped when it was found that he would be impossible for the producer to use the swimmer in a picture until May. Young's managers insisted the filming must start at once in order to release him for vaudeville tours.

The producers said Young's film tests showed the youth to have a "pleasing screen appearance."

## Pool Wheat Via Western Ports

Huge Quantities of Grain Exported Via Vancouver and Prince Rupert

Vancouver.—The Alberta wheat pool has shipped nearly 5,000,000 bushels of grain from Vancouver this year to date and expects to move a total of approximately 20,000,000 bushels by the close of the season, George McIvor, sales manager of the pool, announced here.

From Prince Rupert the pool has shipped 1,500,000 bushels of grain annually to the United Kingdom, and expects to reach the 4,000,000 bushel mark before the season ends.

### Butter From New Zealand

Montreal.—Twenty-five thousand boxes of New Zealand butter, each box weighing 35 pounds, will be landed at Halifax, N.S., by the steamship Arava, some time around February 13. Montreal produce men here declared that due to the demands of the U.S. for Canadian cream and milk, the domestic butter supply was insufficient for the needs of Eastern Canada.

## ONTARIO AGREES WITH QUEBEC ON THIS QUESTION

Toronto.—Complete agreement with the position taken by Premier Taschereau of Quebec on the question of no changes should be made in the constitution of Canada without reference to the individual provinces was expressed by Premier Ferguson here.

"Mr. Taschereau is entirely correct in his view," said the premier. "The constitution is an agreement arrived at among the provinces as the result of a conference between them. It would be essential that any amendment to it should similarly be submitted to all the provinces and receive their consent."

"Not only do we agree with what Premier Taschereau has said, Ontario herself would protest, and protest vigorously, if it were proposed to make any change in the constitution without consulting her."

## 'Flu Takes Toll in Britain

667 Deaths From Epidemic Are Reported in One Week

London.—A whiffy April last week has caused the recent epidemic of influenza, which has been prevalent in many parts of Europe, to tighten its grip on Great Britain, 667 deaths being reported in Britain for the week ending Jan. 26.

The official death toll in the county of London has shown a steady increase during the past three weeks, the figures being 72, 137 and 197. The reports from 105 large towns and cities from London for the same period of time show 172, 326 and 470 deaths.

In some of the poorer districts of London people have had to stand in line to obtain death certificates. Hundreds of school teachers are in white some small shops in the East End have put up their shutters and placed a notice on the door: "The whole family is ill of influenza. Will re-open when better."

## Settle Wage Dispute

Thirty Thousand Rail Shopmen Affected by Scale Revision

Montreal.—Settlement of the wage dispute involving 30,000 rail shopmen on nine Canadian railroads was announced here by the Railway Association of Canada. The men asked for 10 cent an hour increase. Settlement was effected on a basis of increases between two and four cents an hour. The agreement is the result of negotiations which have been proceeding for some months between the Railway Association of Canada and Division No. 1, American Federation of Labor, representing employees in railway shop trades. The revision of certain working conditions was also effected.

## Dog Stars of the Chateau Team

Whether or not the cameramen thought these hunkle dogs over the countless miles of snow he claims in order to catch them with their tongues hanging out and out of breath is hard to tell. There is no denying however that he has obtained an admirable set of pictures. The leader of the three, at the left, "Jeff," and "Pans" at the right, two of the seven hunkles of the Chateau Frontenac Dog Team. This team is led by "Montie," a veteran with a romantic record of service in the far north, with the Royal Canadian Mounted Police.

## Ask for Exemption

Would Free Charitable and Educational Institutions From Income Tax

Ottawa.—Exemption of all contributions to charitable and educational institutions from taxation under the Federal Income Tax Act was requested by a delegation of prominent Canadian citizens, which waited upon the government.

Hon. J. A. Robb, Minister of Finance, who, with Hon. J. L. Ralston, Minister of National Defence, and Hon. W. D. Esler, Minister of Customs, received the delegation, stated he would take the matter up with officials of his department and then by the whole situation before his colleagues.

Included in the delegation were such prominent men as Sir Arthur Currie, Sir Lomer Gougeon, Sir George Foster.

Sir Arthur Currie stated the delegation represented more than 400 Canadian institutions from coast to coast.

## Big Colonization Plan

15,000 Settlers to be Located in Three Western Provinces This Year

Calgary.—Three thousand families, or roughly speaking, 15,000 people, are assured for settlement on the three prairie provinces during 1927, T. O. F. Herzer, manager of the Canadian Colonization Association, told the representatives of the various colonization boards when they met in conference here. Mr. Herzer explained that this meeting differed from other colonization conventions in that its object was not the attracting of settlers but to finding out how many of the 2,000 families, known to be coming to the West this year, could be taken care of in Alberta.

"Our purpose of meeting here," he said, "is to take an inventory now to find how many can be placed on land in this province on Canadian Pacific Railway land, on private land, rented land, and on Government-owned land."

Mr. Herzer emphasized the fact that there was no attempt to replace Canadians by "half-baked Europeans."

## Election Was Unanimous

Captain D'Oley Named World's Outstanding Aviator of 1926

Paris.—Captain D'Oley, French aviator, who has distinguished himself with flights to French Indo-China, Russia and other parts of the world, has been named by the International League of Aviators as the world's outstanding aviator of 1926.

Sir Alan Cobham, of England, who made a round trip to Australia, was also named as the first ball, but D'Oley's election later was made unanimous.

In England there is one telephone to 27 inhabitants, compared with one telephone to every seven in the United States.

## SERVICE LEAGUE FOR SOLIDARITY OF THE EMPIRE

Winnipeg.—Momentous questions on Empire relations, immigration, soldier settlement and organization were cleared from the agenda before the national convention of the Canadian League of the British Empire Service League.

The report on Empire relations, which was unanimously approved by the convention, calls for the adoption of a Dominion policy directed toward harmonious relationships within the British commonwealth of nations and that the solidarity of the Empire be assured by the exercise of practical measures of immigration, industry and education.

The report was described by one speaker as one of the most "notable documents" ever drawn up in the country. The committee responsible for its construction was composed of Dr. G. H. Wade, mayor of Hanna, Alta.; Brig-General Sir Richard Turner, Quebec City; Brig-General F. S. Meighen, Montreal; E. E. Spencer, Marston, Man.; and Col. J. McRae, mayor of Regina.

The outstanding recommendations of the report provide for: Migration and land settlement within the Empire; development of Empire industries for all products; suppression of foreign literature and films whose influence is antagonistic to British ideals; development of the spirit of Empire among the people of the Dominion as an offset to dangerous foreign activities; introduction of text books in schools of British composition and manufacture; safeguarding of Empire contracts.

Another provision of the report stipulates that the Canadian Government be urged to enter negotiations with the British Government for an agreement under the Empire Settlement Act for as large a volume of suitable British settlers and as great an amount of British capital for development purposes as possible.

## May Establish New Town

Paper Mill to be Erected on East Coast of Vancouver Island

Victoria, B.C.—Negotiations have been completed between Hon. T. D. Pattullo, Minister of Lands, and James H. Lawson, attorney for the Crown, regarding the erection of a paper mill on the east coast of Vancouver Island. The first unit will be a 200-ton paper mill, but power sufficient for eventually supplying a mill capable of manufacturing 1,000 tons of newsprint a day is said to be available.

Contemplated development will lead to establishment of a new town of 4,000 to 10,000 persons in the central region of the island. It is stated.

The Canadian Crown, Williamson Company, Limited, was incorporated here at \$5,000,000 as a subsidiary to the Crown Williamson Paper Company, which already is operating four other paper mills on the Pacific Coast.

## Discourages Return of Missionaries to China

Cable Advises Any Now in America Not to Sail

Toronto.—A cable received by the Toronto headquarters of the China Inland Mission from the Shanghai mission house, makes reference to the troubles in China and discourages the return of missionaries now in America. The cable was received in reply to a message sent to Shanghai asking advice regarding the sailing of Mr. and Mrs. Seaman from Vancouver on February 26. Mr. and Mrs. Seaman, who are Australians, have been spending a furlough in Canada and the United States.

## Sonless Father Takes His Boys to Alaska

BUCHANAN AND HIS BOYS

GEORGE E. BUCHANAN

A bachelor who loves boys but who has no boys of his own! That is George E. Buchanan, a wealthy coal dealer of Detroit, a hard-boiled business man who thinks that the best possible education a boy can have is the education of travel. He has sent 145 boys to Alaska from Detroit and Vancouver via the Canadian Pacific "Princess" Steamers to Skagway; and now he plans to not only send a group of boys to Alaska the coming year, but he has enlarged his program and his former slogan, "On to Alaska with Buchanan!" Buchanan is a Canadian Scotchman who has prospered wonderfully in Detroit. He will tell you he has made money there, but—his big idea is to give the growing boy a chance. The boy

says, "I'll do it," but Buchanan knows in his canny Scotch way that the only thing worth having is the thing you have to earn. So he says to the boys: Here's a trip to Alaska, here's a trip to Europe for you, but listen: "No boy, or man, ever appreciated or got any benefit out of anything he did not work or sweat for. You earn one-third of your passage money, and I will tell you how to do it as best I can; you get your parents to put up another third and I will loan you the remaining third—and you can pay it back to me when you get ready, so that another boy can be sent to Alaska—or Europe." Every boy who has made good his passage money to Alaska is eligible for the European trip—and the percentage

of "make good" boys has been very high, according to Buchanan. Of all these Alaska boys, Buchanan says that two-thirds have voluntarily repaid him, although he has merely put them on honor to do it when they got ready—and he foregoes no legal obligations, because there are none. Any boy, anywhere in the United States or Canada, can qualify for George E. Buchanan's trip to Alaska, or to Europe, and can earn his third anywhere but, of course, he should get in touch with Mr. Buchanan, in Detroit, to learn how to earn his third. All of his boys have a wonderful time, no matter whether they go to Alaska, or to Europe, and when they finish with him they have had a business and travel education worth a whole lot.

CHAPTER XXVI—Continued

"You mean me?" The challenge was so sudden, so relentless, that he started.

"But we mustn't go into that, now, he objected. "We've both turned out differently than either of us expected. Let's just accept each other as we are and be content."

"Oh, but we are not going to do that at all, John," she exclaimed, suddenly. "We're not accepting each other. You're much too great and too serious and preoccupied for me. I'm much too frivolous for you. You've told me all that before, and you've made up your mind about me. I'm just downright glad to see you, because I shared those dreams of yours, you know, and I'm so glad to see you sitting your way. You're out of the mist, the silk curtain past, and I'm out of the past, the Mr. Adams past. That's all it is, isn't it?"

"I had hoped it would turn out to be more, he said, shortly.

"That's the trouble with hopes, Joanna observed. "We build so much into them and it takes so little to blast them."

In the long, low ciliated dining room of Villa Ametie, they sat across from each other over a table of exquisite napery and massive silver

## Refuse Import of Camels From Russia

Danger of Spreading Foot and Mouth Disease Says Minister of Agriculture

"It is true that camels are to be imported from northern Russia for farm work in the west," was a question asked of the minister of agriculture, Hon. W. R. Motherwell, with regard to a despatch to this effect from St. Petersburg.

"Are the camels a coming," said Mr. Motherwell. "From Russia, they say? No, I think not. Much as we sympathize with the point of view of the group of farmers who are making the request for assistance in this matter, it would be detrimental to their interests as well as the interests of the whole country owing to the danger of bringing in foot and mouth disease."

"We wouldn't import four-footed live stock of any kind from northern Russia, cattle, horses or hogs for that matter, because of the prevalence there of foot and mouth disease."

listening to me, that every soldier you knew of went away to fight with a girl's kiss on his lips. I remembered you said soldiers seemed to be satisfied with their girl, anyhow, if other people did distrust them. Foreman had the same idea. So I adopted it. It's caught."

After a time restraint settled between them again. They went into the moult grounds for a turn among the gardens. They came upon a litter of timber. "I'm having a pavilion built," Joanna exclaimed, "for the dancing at my fête. I'm having a party you know," she volunteered. "Early next month. Everyone expects something of the sort among the villas down here, and I'm going to do my best. It was Brandon's idea. He and Yvonne are supervising the details. I'm spending the money. We shall make it something to talk about."

"Yes," John murmured, "all that you do—do with the money that was given to you, seems to make people talk. I've heard much in London, in Paris, and even during the night day that I've been here, I asked the concierge at the hotel if he knew where the Villa Ametie was. 'Oh,' he said, 'Where the Golden Girl lives? It's a

gay place, M'leur. Anyone will show you the way." And, fangy, you gave them something to talk about at the Casino this afternoon. You're having a bright time with your money, aren't you?"

"You mean to say, don't you, that I'm frivolous?"

"You don't seem to have accomplished much," he returned. "It's quite as I told you, in New York, isn't it?"

"Quite," she agreed. "I'm just a daughter of the Babylonians, John. A daughter of the Babylonians today. People say my motto is, 'Firt, Love, and Venture. I'm not the kind of a girl, John, you'd put on your pedestal, and I'm not."

He wouldn't answer in words; yet Joanna understood that he did answer eloquently. And the shadows in her brown eyes were deeper. Yvonne recognized the depth of them when she returned, having left Kenneth behind.

Both Yvonne and Joanna were pro-

## Travelers Should Carry Cuticura

Daily use of the Soap and Ointment removes the dust and grime of travel, allays irritation, redness and roughness of the face and hands and keeps the skin soft and clear under all conditions of exposure. Cuticura is fragrant, cooling and refreshing, an ideal toilet powder.

### Wheat Pool News Notes.

The Republic of Poland, thru the Consul at Montreal, has made inquiries from the Alberta wheat pool as to operation and organization of the Pool.

The January meeting of the Board of Directors of the Wheat Pool was held in Edmonton during the annual convention of the U.F.A., January 18th to 21st, 1927.

Ontario farmers are planning the formation of a grain pool. Last year an Ontario farmer co-operative company exported winter wheat through the assistance of the Canadian Wheat Pool.

Farmers are again advised to apply for what seed oats they will need, to local elevators. Those desiring registered seed should apply to the Government seed cleaning plant at Edmonton.

Peace River problems will receive early attention in the Legislature when the session opens, since Hugh Allen, U.F.A. member for Peace River, has been selected to move the reply to the speech from the Throne.

The Alberta wheat pool will build or acquire at least one hundred local elevators during the present year. The cost of these will run a million and a quarter dollars. At present the pool owns and operates 42 elevators thruout Alberta. C. M. Hall is manager of the pool elevators system.

The Alberta wheatpool is seeking to secure a lease on a Dominion Government terminal elevator at

Vancouver. Negotiations were halted by the resignation of the harbor Commission of that port. Opposition developed to the government leasing one of its terminals to the pool. Some Vancouver interests want the pool to build its own terminal. This would cost about two million dollars.

W. J. Jackson, Alberta Wheat Pool director, who has been in Argentine studying conditions for the Canadian Pool, which sells the wheat of the three provincial Pools, is perfecting an Information Bureau to furnish accurate and instant information on conditions affecting grain prices from all over the world. Dependable information is of vital importance in selling the tremendous bushelage handled by the Pools.

### NOTICE

#### TOWN OF STONY PLAIN.

#### MUNICIPAL ELECTIONS, 1927.

PUBLIC NOTICE IS HEREBY GIVEN that a meeting of the Electors of the Town of Stony Plain will be held at the Town Hall, Stony Plain, on MONDAY, THE SEVENTH DAY OF FEBRUARY, 1927, from 11 o'clock in the forenoon until Twelve o'clock Noon, for the purpose of nominating candidates for the office of Councilors for the next ensuing two years.

Given under my hand at Stony Plain this 31st day of January, 1927.

F. W. LUNDY,

Returning Officer.

**Muir Lake Community  
Concert and Dance  
Friday, February 18th.**

### Stony Plain and District.

On Wednesday Jan. 26, to the wife of Mr Rheinhold Hennig, a son.

Mr E. H. Krueger is now employed at the Service Garage (Sommerfeld & Mayer).

The price of barley is now on the up-grade. Local farmers with bins full of this commodity are hoping the prediction will come true that the price will go to 90c.

Mr Adams, from across the river, last week brought to town three lynx pelts, and received \$85 for the lot.

Miss Schum of Spruce Grove died last week in an Edmonton hospital, following an attack of influenza. Miss Schum had, up to a short time ago, been in attendance on Miss Madeline McCullas nurse.

Mr S & E Anderson are engaged in remodelling the house on the farm formerly occupied by them at Holborn. The place has been purchased by Mr M. Aronson, who will shortly move into it.

Concert and dance February 25, in Wudel's hall, by the Girls' Club.

The whist drive and dance Friday evening last at Holborn Hall, under the auspices of the U. F., proved a very enjoyable affair, with a just right crowd present. The winners at whist were: 1st prize, R Washburn and Mrs R Meads; 2d, J M Kullander and Mrs McDonald; 3d, Mrs Chris Pitzler and W M Washburn.

The next event at Holborn, the masquerade dance, is billed for Monday Feb. 14. This bids fair to be the event of the season.

The Community dance at Winterburn hall on Friday night was well attended, in spite of the snow-drifted roads.

The Sporting Club at Manley held a dance in Manley hall Sunday afternoon, which drew a good crowd.

Saturday midnight seen the inauguration of the automatic telephone signal inaugurated on all the rural lines running out of Edmonton, thus dispensing with the services of about a dozen lady operators. Edmonton's rural phone service includes Spruce Grove district and extends to within a mile or two of Stony town.

Some slight confusion was expected at first, and this had been provided for; so now the new system is running along pretty smoothly. It is not known when the system will be extended to Stony Plain, but it will probably not occur for some time, and we must struggle along as best we may with what we have.

M M Mecklenburg, the well-known optical specialist, will be at the Royal Hotel, Stony Plain, on Monday, February 28. See him and see good.

Holborn U. F. W. A. are holding a masquerade dance at Holborn Hall on Monday Feb. 14. Good prizes. Barnes' orchestra.

### Railway Time Table.

Going east—Monday, Wednesday, Friday at 6.27 a. m. Sunday, Tues. Thurs. Sat. at 5.15 a. m. Going West—Sunday, Tuesday & Friday afternoons at 1.30. Every morning at 13 minutes to 1.
